

SILENT OVERDRIVE

info/contact/booking: info@silentoverdrive.com

Founded in the summer of 2002 the five guys from SILENT OVERDRIVE have devoted themselves to Thrash Metal. After release of their first self-produced demo CD numerous gigs all over Germany followed. Having defined their unique sound, the boys still emphasize their roots in the vein of Hardcore bands like PRO-PAIN or HATEBREED.

In 2004, the first professional recording sessions followed and the 5-track EP "Babylon Nation" drew a lot of attention from press and fans alike. Shortly after, the band got signed by Germany's infamous underground label MDD Records. After the release, SILENT OVERDRIVE got the chance to promote the record on Denmark's finest death metal export ILLDISPOSED's "European Vindication Tour 2005" which was followed by the release of their first longplaying CD "Disease".

Immediately afterwards, SILENT OVERDRIVE toured middle and eastern Europe for two weeks as the main support for New York based hardcore legend PRO-PAIN. Countless concerts and festivals followed along with bands like OBITUARY, ENTOMBED, DISMEMBER, GOD DETHRONED, GOREFEST, VADER, LEGION OF THE DAMNED, EKTOMORF, CATARACT, BORN FROM PAIN, KATAKLYSM, ARCH ENEMY, SONIC SYNDICATE and many others.

The recordings of the current third studio album "WAKE UP CALL" have just been finished - it was mixed and mastered at the Rape of Harmonies Studios (Heaven Shall Burn, Maroon, etc.). Singer Maik: "With the new record we succeeded in grabbing our live power onto CD. The new record sounds 100% rough and heavy. 100% Silent Overdrive ...100% in your face!!"
